DEVELOPMENTAL  
DISABILITIES

STEVE OSTER, SUPERINTENDENT

## INDIVIDUAL PROFILE

DATE: 08/29/2016

KF is a 15 year old male who lives at home with his adoptive parents. KF attends school throughout the week. KF is looking for a male individual or agency provider who he can form a trusting relationship with. He would like for his provider to spend time with him at home at times as well as take him out into the community for various community activities, outings, etc. His parents want for him to be able to spend time inside and outside of the home with someone he can trust.

KF and his parents are looking for a provider who can work with KF maybe one or two evenings a week and/or a day on the weekend depending on what activity KF and the provider may have planned. KF is fun loving and fun to be around and is really looking forward to spending time with his own provider he can build a strong relationship with.

FUNDING SOURCE: Level I

HOURS: 5 hours per week per schedule; can vary based upon what plans the provider has planned as an activity
